

America's most comprehensive, patent pending, healthcare facility compliance system.

Featured in **HFM Magazine's** Field Report

Ensuring ongoing compliance readiness with The Joint Commission Life Safety, Infection Control, Environment of Care and Emergency management standards.

- Integrated with your work order system
- Mark & See deficiencies on floor plan
- Floor Plan integration with Assets
- Rounds and Drills
- Inventory Reports
- Digital Binders
- Policy Binders

- ILSM Determination and Documentation
- Tracking of all EPs of EOC EM and LS
- SAFER MATRIX and ILSM tracking
- Life Safety drawings repository
- Perform all inspections
- Inspection check-lists
- ICRA Permits

The central graphic features the CRx logo surrounded by circular icons for various system functions: Rounds & Drills, Inspection, Construction, Work Orders Integration, Binders, Risk Management, Reports, Drawings, and Dashboard. Below these icons are four tablet screenshots showing the software interface for Dashboard, SAFER Matrix, Binders, and Inspection.

By using CRx you will go into a survey knowing that all required compliance activities were completed on time, fully documented and retrievable in seconds.
