RECOGNITION OF PERSONAL AND PROFESSIONAL ACHIEVEMENTS

2018

ashe.org/awards
The Crystal Eagle Leadership Award is presented annually to a member of the American Society for Healthcare Engineering whose contributions have affected the health care facility management profession and made a difference to the Society. Often referred to as “ASHE’s lifetime achievement award,” this award recognizes those who have been instrumental in the creation and optimization of healing environments.

George L. Thomas, FASHE, CHFM
Retired
Piscataway, NJ

George began his career as an hourly employee in the Housekeeping Department, then moved to the Engineering Department as an hourly employee, where he obtained his Stationary Engineers License and a New Jersey State Electrical Contractors License. From there, George took on more leadership roles in health care facility management, and later in life, in health care compliance. During his 50+ years of service in the health care field, George not only served the health facilities and organizations that he worked for, but also gave back to the entire field by volunteering his time with ASHE and his local chapter, the Healthcare Facilities Management Society of New Jersey. On top of being a lifetime ASHE member, George served as an ASHE Board Member from 1993-1996, served on several ASHE committees, and was the HFMSNJ President for two terms. In his personal life, George serves his church as a member of the Board of Trustees where he is an integral part of the Facilities Committee.

George’s passion for the health care facility management field and tireless pursuit to give back and share his knowledge has made ASHE proud to name him the 2018 Crystal Eagle Leadership Award recipient.

“I have known George for over 15 years through our affiliation HFMSNJ. George has been an inspiration to all of us in the chapter and is an example of what you can achieve in this industry when you devote the time and have the talent.”
— John DiGirolomo

“His career and productive retirement have demonstrated a commitment to healthcare engineering, facility management, stewardship and leadership that exemplify the mission of ASHE.”
— Robert Roop

“If anyone deserves ASHE’s most prestigious award, the Crystal Eagle, it is George...George has supported ASHE’s core values of integrity, innovation, fellowship, and stewardship. These core values are the very spirit of ASHE.”
— James Shoemaker
The President’s Award is presented at the discretion of the sitting ASHE president to an individual who has made significant contributions to the health care facility management profession and has gone above and beyond the call of duty in support of the Society.

SUSAN B. MCLAUGHLIN, MBA, CHSP, FASHE, MT (ASCP) SC, CHFM
Chief Operating Officer, MSL Healthcare Partners, Inc. Barrington, IL

“When I first got involved in health care, I was searching for the education and sense of community to really get started and involved in the field. So I decided to sign up for my first ASHE course. Alongside Doug Erickson, Sue led an inspiring and thought-provoking introductory health care facility course for ASHE. That course set the foundation for the rest of my career; if I hadn’t attended, I probably wouldn’t have stayed in the health care field. Sue has been teaching and giving back to others for a long time. She has also served in many leadership roles, specifically alongside me for several years on the ASHE Board as the first Associate Member Representative. Sue blazed a new path in a traditionally male-dominated field, and has prospered. I hope other women, and all facility professionals for that matter, see her as an inspiration.”

— Brad Taylor, 2018 ASHE President

Sue McLaughlin is a founding partner of MSL Healthcare Partners. She has over 15 years of national consulting experience in the environment of care, emergency management, and life safety. She is a Fellow of the American Society for Healthcare Engineering, a past member of the ASHE Board, and chair of the NFPA 99 Technical Committee on Emergency Management and Security. Previous positions include Director of Safety and Compliance for ASHE, and Associate Director, Standards Interpretation, Environment of Care Standards, for The Joint Commission.
Fellow status (FASHE) is bestowed upon ASHE members of at least 10 years who have demonstrated an advanced level of expertise and leadership. Fellow designation recognizes individual contributions and commitment to ASHE and the ability to advance the future of the profession.

ASHE’s Energy to Care program encourages hospitals across the country to reduce their energy consumption by 10 percent or more over their baseline score. These recipients are dedicated to sharing fundamental concepts, best practices, proven strategies, real data, and financial tools that contribute to energy savings in support of patient care. ASHE recognizes the following health care facilities for their achievements in energy efficiency.
