Poll Question

- Are all of your architectural and life safety drawings stored in a single place and format?
  - Yes
  - No

© 2019 Dude Solutions | CONFIDENTIAL

The Current State of Healthcare

Trends

- Inefficiencies in organizing and locating paper-based drawings and artifacts
  - Cumbersome process of locating assets, locations, etc. with physical drawings
- Interest in having greater insight on how space is being utilized
  - Reimbursements based on space usage

© 2019 Dude Solutions | CONFIDENTIAL

Trends

- Enablement of efficiencies and better understanding through mobile technology
  - People retain 80% of what they see vs. 20% of what they read
- Normalization of having access to information anywhere, anytime
  - 81% of Americans own a smartphone
  - 85% of TheWorxHub managers and technicians use mobile devices daily as part of their job

© 2019 Dude Solutions | CONFIDENTIAL

What’s the issue?

- Limited access to an under-utilized "gold mine" dataset
- Inconvenient for new staff members and surveyors
- Business continuity with staff changes
- Lack of centralized way to house documentation
- Visibility into space utilization across the hospital

Why Visualizing Your Space Matters

Why It Matters to Your Organization

- Simplify the technicians' day -to-day
  - Access at anytime, anywhere provides information at their fingertips
  - Visualize their work
- Get work done faster
  - Plan the work orders and see others in the same area
- Streamline staffing and scheduling
  - Get staff up to speed faster
  - Show the needs nearby their location
- Map out compliance
  - Integrate requirements into your facility map

© 2019 Dude Solutions | CONFIDENTIAL

Why It Matters to Your Organization

- Access documentation quicker
  - Store historical information on equipment and work orders to ensure consistency and smooth transition
- Understand space utilization
  - Chart how your space is being used
- Go mobile
  - Technicians and staff can have access to a shared map they can pull up anywhere
- Inputting work order requests
  - When staff don’t know your facility, giving them the ability to look at it virtually improves work order location efficiency
