

Contents

- ABOUT THE AUTHORS** 1
- ACKNOWLEDGMENTS** 4
- PART 1 INTRODUCTION/HISTORY** 5
 - Overview of This Guidebook 5
 - The Significance of Integrated Fire Protection and Life Safety Inspection, Testing and Maintenance 8
 - History of Integrated Testing 11
 - How to Use This Book 16
 - Appendix 1.A: Centers for Medicare & Medicaid Services (CMS) Adoption of NFPA 101-2012 18
 - Appendix 1.B: NFPA 3-2018 and NFPA 4-2018 19
- PART 2 INTEGRATED FIRE PROTECTION AND LIFE SAFETY SYSTEMS: AN OVERVIEW** 21
 - Industry Standards 24
 - Programming Basics 29
 - Certifications and Competencies 38
 - Systems, Codes and Components 49
 - Next Steps 57
 - Appendix 2.A: Example Facility Standards for ITM Requirements and Minimum Certifications by System Inspection Type 58
- PART 3 ESTABLISHING A BASELINE** 67
 - New Building Best Practices 67
 - Assessing Existing Systems 74
 - Next Steps 94
 - Appendix 3.A: Example ITM Vendors and Systems Coordination Matrix 95
 - Appendix 3.B: Vendor Sample Questions 96

PART	4	PROGRAM DEVELOPMENT	97
		Before You Begin.....	97
		Developing the Integrated Testing Team.....	100
		Develop the Emergency Control Function List.....	102
		Choosing the Software.....	105
		Build Your Plan.....	106
		Integrated System Test Plan Development.....	125
		Next Steps.....	135
		Appendix 4.A: Environment of Care Documentation Checklist.....	136
		Appendix 4.B: Sample Standard Operating Procedure.....	137
PART	5	IMPLEMENTATION AND SUSTAINMENT	141
		Preparing Leadership.....	141
		Training/Kickoff.....	144
		Repairs.....	144
		Enforcement.....	148
		Improvement.....	148
		Conclusion.....	149
PART	6	CASE STUDY: BAPTIST HEALTH	151
		Before We Began.....	152
		Year 1: The Year of Data.....	158
		Year 2: The Year of Building.....	158
		Year 3: The Year of Refinement.....	159
		Looking to the Future.....	159
		RESOURCES	161
		NFPA Resources.....	161
		Organizations.....	161
		Certification/Training Programs.....	164
		Degree/Certificate Programs.....	164
