National Health Care Facilities and Engineering week is October 23-29! Make sure to thank the facility managers and Engineers at your organization and in your community.

#CelebrateFE Week by taking some time to learn about the facility team members in your organization and your community! The American Society for Health Care Engineering has helpful resources and toolkits to raise awareness for facility management and engineering.

#CelebrateFE Week! Health care engineering is a proactive and responsive profession that works to deliver patient safety and trusted health care environments by committing excellence to their members, the facilities they build and maintain, and the patients they serve.

Twitter

Facilities and Engineering Week is October 23-29! Follow #CelebrateFE Week with ASHE to learn how Facility Managers and Engineers help your organization.

During #CelebrateFE Week, make sure to celebrate the integral role that facility managers have in delivering safe and trusted health care in our community!

The way I show my appreciation for facility managers and engineering professionals at my organization is to #CelebrateFE Week with ASHE!

This week is National Facilities and Engineering Week! It's time to acknowledge the importance of facility managers and engineering professionals in our community.

Have you checked out Voices of ASHE yet? It highlights individual members and their diverse experiences. In celebration of National Facilities and Engineering Week, be sure to share YOUR story or nominate a colleague to be featured <https://www.ashe.org/voices-ashe>
