

Ryan Schramm, CHFM, CHC, SASHE **2024 Candidate for Advisory Board Region 9 Representative** **Bio**

Ryan Schramm is a seasoned professional in healthcare facilities management, recognized for his expertise as a Subject Matter Expert (SME) at Legacy FM and Senior Systems Manager of Facilities Operations at Banner Health. With nearly two decades of experience, Ryan has established himself as a visionary leader and strategic thinker in the healthcare industry.

Ryan's journey in healthcare facilities management has been marked by a diverse range of experiences, from construction project services to CMMS optimization and asset risk management. His comprehensive knowledge of healthcare facility operations and regulatory compliance, coupled with his unique ability to tackle complex challenges with innovative solutions, sets him apart as a forward-thinking leader.

As a Senior-designated member of ASHE (SASHE), Certified Healthcare Facilities Manager (CHFM), and Certified Healthcare Constructor (CHC), Ryan is committed to continuous growth and development in the field. He is currently playing a pivotal role in ASHE's Member's Tools Committee (MTC) and chairs the Operational Optimization Statement Definition Task Force (OOS/DTF), where he drives innovation and operational excellence.

Ryan's impact extends beyond his professional roles. He received the Emerging Regional Leader Award in 2020 from the American Society for Health Care Engineering (ASHE) for his outstanding contributions to the field. He has also served in leadership positions such as Past State Officer of the Minnesota Health Care Engineers Association (MHCEA) and Past Club President of the Cannon Falls Rotary Club, demonstrating his commitment to both professional excellence and community engagement.

With a Bachelor's degree in Operations Management from Minnesota State University Moorhead (MSUM) and a background in Carpentry from Alexandria Technical College, Ryan brings a holistic perspective to his work, blending technical expertise with strategic vision.

In his current role at Banner Health, Ryan leads operations at the Remote Operations Center (ROC), overseeing technology platforms and driving process improvements to optimize facility operations across multiple states. His contributions to projects like the Apple Device Refresh initiative and standardizing databases highlight his ability to leverage technology for enhanced efficiency and productivity.

Ryan's professional journey is characterized by a relentless pursuit of excellence, a commitment to empowering teams through education, and a passion for driving innovation in healthcare facilities management. His leadership and contributions continue to redefine the standards of success in the industry, making him a respected figure and trusted advisor in healthcare operations.
