

2026 ASHE Election

Candidate for Advisory Board Region 4 Representative

Caleb Kelley, CHFM, CHC, CHSP, CHOP, is the Director of Facilities Management for the Columbus Hub of Piedmont Healthcare, where he oversees facilities operations for Piedmont Columbus Midtown, Piedmont Columbus Northside, the Bill & Olivia Amos Children's Hospital, the John B. Amos Cancer Center, and multiple medical office buildings across the region. With more than 17 years of experience in healthcare facilities management, Caleb has built a career centered on operational excellence, regulatory compliance, healthcare construction, and leadership development within complex healthcare environments.

Prior to joining Piedmont Healthcare, Caleb helped lead facilities operations during a period of rapid organizational growth that expanded from a single hospital and a small network of clinics to nearly 50 healthcare locations across Georgia, Alabama, Tennessee, and Florida. His experience spans hospitals, ambulatory surgery centers, orthopedic and specialty clinics, medical office buildings, and large-scale healthcare construction and expansion projects.

Caleb is passionate about advancing the healthcare facilities profession through leadership, education, collaboration, and mentorship. He is actively involved in both ASHE and GASHE and has contributed to multiple professional education and volunteer initiatives designed to support healthcare facilities teams across the industry. Caleb also collaborated with ASHE leaders on the production of educational safety videos, including "How the Safety Guy Made the Holidays Safer," which became the most downloaded video on the ASHE YouTube channel.

He has obtained the Certified Healthcare Facilities Manager (CHFM) and Certified Healthcare Constructor (CHC) credentials through ASHE, along with the Certified Healthcare Safety Professional (CHSP) and Certified Healthcare Operations Professional (CHOP) certifications.

Caleb is committed to supporting the next generation of healthcare facilities professionals and strengthening collaboration across the industry to help ensure safe, reliable healthcare environments for the patients, staff, and communities healthcare organizations serve every day.
